Summary

Enthusiastic artist with two years of experience in the animation industry. Skilled in character design and praised for ability to accurately capture emotions and personality of characters.

Experiences

2D Artist

2021-2023

The Studio NYC

- Created character designs, concept art, animation-ready assets, and illustrations for over twenty projects using Photoshop and Illustrator
- Provided revisions based on internal and client feedback in a timely manner
- Employed a wide variety of artistic styles, from realistic to stylized, to create a design that fit the client's needs
- Utilized client references and conducted additional research to support the creative vision
- Photomatipulated archival images and client assets for animation and editing
- Created designs based on existing brand guidelines
- Independently designed characters and backgrounds for Sesame Street's "F is for Fairytale" and an animated video about Type 1 Diabetes
- Completed projects while working under tight deadlines

Concept Artist

2019

SCAD Collaborative Project: "Her Escape"

- Collaborated with eight students to complete a three minute short film over a ten week period
- Partnered with another concept artist to create an art style that informed the visuals of the film
- Promptly created character, environment, and prop designs in Procreate
- Drew character explorations, turn-arounds, and expressions for the main character to help inform the character's personality

Junior Production Assistant

2016-2019

Fiske Planetarium at the University of Colorado

- Supported the production of NASA informational shorts with 3D animations along paths in Maya
- Formatted and edited videos and images for a full dome screen
- Created promotional content, such as posters, flyers, and image projections, for events and shows using Photoshop, InDesign, and Illustrator
